

# Summer Is Back — Time to Prepare for Winter

*Summer demand has returned as resort travel. And the real stage is the winter high season  
(southern dry season + Korean Lunar New Year & winter break demand)  
— let's prepare for winter together, now.*

**1.32M**

Korean visitors in Q1 (KTO)

**~50%**

Koreans' #1 SEA destination share

**+63%**

Phu Quoc visitors (Agoda)

**The winter high season (southern dry season Nov–Apr + Korean Lunar New Year & winter break) is the real stage — whoever secures hard blocks now owns the winter.**

# From Sightseeing to Resort Stays — Vietnam at the Center

*Not 'budget sightseeing' but 'staying at the resort' — why Vietnam is the answer in summer and winter alike*

## ✓ Summer — Demand Is Back

- Vietnam over Guam & Saipan — FX and fuel costs flipped the value equation
- Summer resort staycations too (Da Nang · Nha Trang · Phu Quoc)
- Sun PhuQuoc Airways launches Incheon–Hanoi & HCMC from Aug 25 — better access
- Many 4–5 hour nonstops = a true short-haul resort destination

## ★ Winter — The Real High Season Is Coming

- Southern dry season Nov–Apr · Korean Lunar New Year & winter break peak Dec–Feb
- Lunar New Year (Tet): Phu Quoc 4–5★ near full (90%)
- Most stable weather & sea conditions = peak-rate period
- Lock winter inventory now to own the high season

## Summer is back — and winter is bigger

Instead of sightseeing-heavy itineraries, **staying at the resort** is winning. 4+ night resort stays are up **+20%** YoY, with a rising share of family travelers.

*→ Carry the guests who arrived for summer resort stays into the winter high season. Winter prep starts now.*

# Koreans' #1 in Southeast Asia — and Winter Is Coming

1.32M visitors (Q1) · 4.5M+ full-year outlook · visa-free + nonstop + resorts = the complete short-haul getaway

## Four Things Make Vietnam the #1 Short-Haul Resort Destination

|           |                                                                                                                                             |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Access    | Many 4–5h nonstops from Seoul to Hanoi, HCMC, Da Nang & Phu Quoc. Beats Guam/Saipan on value.                                               |
| Resorts   | Resort stays, not sightseeing. Da Nang 34.4% · Nha Trang 30.7% · Phu Quoc 20.3% (Yellow Balloon, a major Korean travel agency).             |
| Visa-free | 45-day visa-free entry for Koreans nationwide (guaranteed to 2028) — ideal for long stays and month-long living.                            |
| Winter    | The winter high season (southern dry season + Lunar New Year demand) is the real stage. Phu Quoc near full over Tet — secure inventory now. |

# When Summer and Chuseok Are Too Close, Both Run Soft — the Real Stage Is Winter

August summer vacation → barely a month → Sep 24–27 Chuseok, Korea's Thanksgiving (4 days) → and then → Nov–Apr winter high season (main stage)

## ⚠ Signal — Summer & Chuseok Demand Splits

- Those who traveled in August can't take another long trip a month later
- Chuseok is a short 4-day break — limited upside
- Over-allocating inventory to summer/Chuseok is risky

## ✓ So — We Put the Weight on Winter

- Run summer/Chuseok light, with short resort packages
- Vietnam's main stage = winter high season (southern dry season · Lunar New Year demand)
- Winter hard blocks confirmed now are what create revenue

*Don't overstock summer and Chuseok. Save the firepower for the winter high season — that is Vietnam's answer.*
